JS Happening Image Consulting is a leading styling boutique in Zimbabwe that embodies excellence, distinction, gracefulness and finesse. We have assisted so many individuals to move beyond limitations into personal style that suits them and which they love. With gentle but firm guidance and support we look at who the individuals are on the inside and show them how to reflect that on the outside. The results are transformative and something every individual deserves to experience.

Why fit in when you can ....HAPPEN!  
Making a strong first impression is critical for success in all aspects of life as 55% of first impressions are based on your appearance. Studies have shown that you are constantly judged

What is image consulting?
